

## DEPRESSION OF THE MARKET IS LIFTED BUT RECEDES AGAIN

Early Gains Are Wiped Out in Nearly All Cases in the Final Hour of Trading. A Few Gains.

NEW YORK, Jan. 13.—Efforts to lift the market out of its present depression by a concerted drive against the increasing short interests in special stocks proved abortive in a dull profession market. A few war shares made sharp recoveries from the low prices of yesterday. There were numerous substantial gains in high specialties. Coppers for a time displayed a better tone at the new high price of 24 1/2 cents.

Gains were largely, if not wholly, wiped out in the final hour. Mexican Petroleum declined six points to 110 1/4. American Smelting dropped 3 1/4. Steel was off 7-8. Sales were 515,000 shares. Bonds were firm. Sales were \$4,320,000.

(By L. J. Overlock)

The market held steady in the early dealings at practically unchanged figures from yesterday. In the late dealings weakness developed and general list sagged. Storms have hampered

telegraph service and reports, quotations and news were very meagre. Action of markets as a whole were disappointing following the seemingly firm tone of yesterday.

## EXODUS FROM CHIHUAHUA RESULT MASSACRE

(Continued from Page 1)

and Mexicans are frequent. It is reported knives were frequently used. All ambulances were rushing through the streets at 10 o'clock, while physicians and surgeons rushed to all parts of the city. The fights were mostly between the American soldiers and Mexicans. The police reserves were called out and the people ordered to keep moving on all the downtown streets.

The police are at all hotels searching out Mexicans and advising their departure. Reports are rife of secret meetings of cattle and mining men to organize the proposed expedition to hunt the bandits immediately, with or without consent of Carranza.

Reports from Chihuahua City said General Trevino, with three hundred men, was in the Santa Ysabel district hunting Villa and his band. Chihuahua City is said to be destitute of troops.

### CO-OPERATION?

DOUGLAS, Jan. 13.—Governor Calles, of Sonora, is preparing to send a column of 5000 into Western Chihuahua to aid in running down the remaining Villa forces, according to the Mexican consul here. The troops are being mobilized at Tonichi, Sonora, forty miles west of the Chihuahua state line.

The action is the result of a telegraph conference between Calles and local Mexican authorities. According to the plan of the Carranza authorities they will endeavor to close in on Villa raiders by sending troops from Sonora east, another contingent south from Juarez, a third column west from Chihuahua City and a fourth detachment north from Torreon. Agua Prieta officials stated the Sonora column would be in the field within a week.

### GENERALS DISAGREE

DOUGLAS, Jan. 13.—Misunderstandings between General Calles, the military governor of Sonora, and Major General Dieguez, in command of the forces operating against the Yaquis, are said to have arisen. A break between these two Carranza officials is threatened. The Yaqui and former Villa forces in Dieguez's forces are said to be discontented over the alleged depreciation of Carranza currency, with which the soldiers are being paid. Mexican consul Levelev here announced that Carranza had ordered all available troops from Cananea and Nogales to Juarez to take the field against Villa.

### UNDER MARTIAL LAW.

EL PASO, Jan. 13.—Martial law was declared at El Paso. Late reports say a large number of armed Mexicans gathered in the lower part of the city. A detachment of the pre-vost guard from Fort Bliss was sent to the scene. Four companies of the Sixteenth Infantry are patrolling the downtown section.

## RENEWES OLD FIGHT OVER NORTH POLE

Representative Helgeson.

Representative Helgeson, of North Dakota, is preparing a speech on the Peary-Cook controversy which he plans to make in the lower house of congress this month. Helgeson is Dr. Cook's most ardent champion in congress and he will maintain in his speech that recent explorations confirm his original belief that Dr. Cook discovered the North Pole and Peary never got there.

## FIRM STAND TAKEN BY THE U. S.

(Continued from Page 1)

and what conditions surrounded the slaying. The department has no information regarding the derailed troop train reported to have caused the engineer of the train carrying the Americans to stop.

Lansing let it be known that he considers there is an analogy between the situation prevailing in certain parts of Mexico and that in certain parts of the west during the early history of the United States. He pointed out many instances where citizens of one country lost their lives in another during insurrection or mob outbreaks which authorities were unable to control and that reparation was not made except as an act of grace by a government which should have been responsible in normal times. As to warnings, it is said the State Department did not point out what parts of Mexico should be considered safe and what unsafe.

It was anticipation of what happened in Chihuahua that prompted the renewed warnings issued shortly after the recognition of Carranza, according to officials. Lansing considers that Carranza officials should have warned Americans of the territory they considered dangerous. Arredondo's statement was made at the conclusion of the conference with Lansing.

He said his information received was furnished by the State Department and Carranza's consul at El Paso. "I have not the least doubt," he said, "that the Carranza forces will not rest until they have captured and punished the assassins. Each American was given permission to pass through the lines, but that was not considered a passport. The Carranza authorities had not wanted Americans to return to work in districts not unquestionably under their control."

He directed attention to the fact that the outrages occurred in a mountainous country favorable to operations of such a band, where outrages of similar character had occurred in the past. Consul Edwards, when informed of the petition asking his removal, said he would answer to the State Department. "Whatever I have done," he said, "has been under instructions of the department with the sole idea of doing what the government wished."

## CLIFF DWELLINGS OF APACHE TRAIL NEED TO BE PRESERVED

Famous Relics Are in Danger of Being Demolished Unless Immediate Steps Are Taken for Their Protection.

PRESCOTT, Jan. 13.—Residents of this district have joined in a movement to bring about governmental action that will result in the protection and preservation of the cliff dwellings on the Apache Trail near Roosevelt. Officials of the Southern Pacific and Arizona Eastern railroads will be asked to aid in the movement as the Apache Trail is now one of the chief advertising attractions of those lines and destruction of the cliff dwellings would be a great drawback to the publicity that is now being obtained for this route.

Mormon Hanna, proprietor of the Palace Pharmacy and one of the foremost amateur photographers in the United States, is interested in the movement and gave it his hearty endorsement when the matter was mentioned to him yesterday.

Mr. Hanna visited the upper cliff dwelling a short time ago and while there observed that one of the walls of the lower dwelling has been partially wrecked; or, at least, it had that appearance from the upper dwelling. Mr. Hanna's photographs of the Gila Cliff Dwellings are famous and very naturally he takes a keen interest in the preservation of the historic landmarks.

That the cliff dwellings near Roosevelt are the finest in Arizona is the opinion of Mr. Hanna. He has visited many of the dwellings and has seen good photographs of the others and he asserts that none other is equal to those on the Apache Trail.

President Wilson recently issued a proclamation declaring the land around the cliff dwellings near Flagstaff a national monument. It is believed that similar action can be secured in connection with the dwellings in this country.

### WOOL GROWERS MEET

SALT LAKE, Jan. 13.—Welcoming the delegates to the convention of the National Wool Growers Association, Governor Spry expressed the hope that the convention would protest against putting wool on the free list. He said he regretted the House of Representatives "couldn't see farther than it did" when it passed the Ferris Water Power Site bill.

President Hagenbarth of the association in his annual address said that unless something were done to prevent what he pronounced unwise distribution of public domain, the sheep industry would be destroyed. He said "The 540 acres of the homestead bill was particularly pernicious. It gives the reckless land promoter opportunity to control land which is absolutely of no use except for grazing or for the land hog who wishes to extort high rental from livestock men to get the stronghold."

The convention is said to be the most largely attended in the history of the association.

## SAYS HOT WATER EACH DAY KEEPS THE DOCTOR AWAY

DRINK GLASS OF HOT WATER BEFORE BREAKFAST TO WASH OUT THE POISONS.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel full and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidney and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but sufficient to make anyone a pronounced crank on the subject of internal sanitation.
